ITEM	DESCRIPTION	CHARGE
All rates are exclusive of GST		
Administration Fee	Replacement invoices or delivery dockets	\$20.00/copy
Temperature Control	Compliance with any temperature specification is not included, however temperature controlled mixes can be supplied	
Concrete Testing	Refer Technical Services Charges attached or provided separately	

Please note: all service charges and testing charges will be applied over and above rates charged for concrete.
All charges are subject to change with 30 days notice.

Product Testing

- Please note testing may be sub contracted. The ordering of testing by the customer is taken as approval to use alternative NATA approved contractors.

Imagecreteexpose® (Exposed Aggregate Concrete) and Imagecretepolish® (Polished Concrete)

- For Quality Assurance purposes, Imagecreteexpose and Imagecretepolish will be batched and sold as a 1.0m³ minimum with 0.1m³ increments.
- Pumpability of Imagecreteexpose® and Imagecretepolish® is not guaranteed and we recommend that alternate methods of placement be used (eg crane and kibble).
- Raw materials used in the Imagecreteexpose® and Imagecretepolish® range are products of nature and therefore subject to variation in consistency, appearance, quality and texture. Any samples shown in brochures or at displays are indicative and illustrative only of the type of finish expected.
- Displays are typically shown with a full exposure and customers must advise their concreter as to the desired finish they require (ie. Full, Medium or Light Exposure).
- No guarantee of product colour or textured finish is given or implied. Aggregates may contain natural impurities such as ironstone, which may cause rust staining. To reduce the impact of these variations we recommend this product be sealed.
- Minimum 72 hours notice is required prior to delivery excluding standard range.

Imagecretecolour® (Coloured Concrete)

- For Quality Assurance purposes, Imagecretecolour® or concrete containing liquid colour will be batched and sold as a 1.0m³ minimum with 0.1 m³ increments thereafter.
- Concrete containing coloured oxide will be batched and sold in 1.0 m³ increments only.
- Minimum 72 hours notice is required prior to delivery

Delivery Notice - Special Mixes

- For all special mixes not mentioned above a minimum of 72 hours notice is required prior to delivery.

Waterproof Concrete

- Hanson does not guarantee waterproofness or impermeability of concrete or any resultant structure when a specification calls for the inclusion into a mix of a permeability reducing admixture or waterproof admixture treated concrete.
- Minimum 72 hours notice is required prior to delivery

Load Size Restrictions

- To comply with quality assurance certain standard products will be sold and batched with a minimum load size of 1.0m³ and quantity increments will apply.
- For certain non-standard products, and all products above 50MPa will be sold and batched with a minimum load size of 2.0m³ and quantity increments will apply.
- These load size restrictions may change periodically. For further information please contact your Hanson representative.

Shrinkage Specification

- Shrinkage specification is based on laboratory test results as per AS1012. Site testing could result in variations in test results.

Contract Documents

- Hanson reserves the right to negotiate all conditions contained in any contract/agreement documentation. Until such negotiations have taken place Hanson Terms and Conditions of Sale, which have been included with this submission, will take precedence.

Raw Material Changes

- Industry supply constraints may require any submitted mix designs to vary without notice. Changes in available quantities of Cement, Fly Ash, Sand and Aggregate may mean mix designs are modified in order to maintain supply of concrete to your project and are therefore unavoidable. Our technical team will ensure mix designs are varied using raw materials with similar physical and performance characteristics complying with relevant specification and performance standards.

Steel Fibres

- Supply and price of concrete that includes steel fibres is dependent on the availability and raw material cost at time of order placement.
- Therefore, Hanson cannot provide fixed price or guarantee of delivery for this type of concrete

Payment Terms and GST

- Cash sales – payment required prior to delivery
- Credit accounts – within any credit period granted in writing by Hanson
- All rates are exclusive of GST

Credit Card Payments

- Hanson has the option for account customers to pay their invoices via credit card. This payment method will attract a surcharge of 1.0% for MasterCard and Visa and 2.04% for AMEX.
